

IDENTIFICATION TAPE

Key Surgical® Identification Tape is designed to help you organize and track instruments as they move between sterile processing and various departments. It's easy to apply, resists chipping, flaking and peeling through repeated sterilization cycles. With the broadest selection of tape available, you will have a colorful, economical and easy to use solution for effective organization and identification.

FEATURES:

- Wide variety of solid colors and patterns
- Styles include:
 - Roll Tape (solid colors only)
 - Sheet Tape (pre-cut, solid or patterned)
- Pre-cut tape reduces potential product waste
- Available widths: 1/8", 1/4" or 3/8"
- Not made with natural rubber latex
- Compatible with steam and EO sterilization methods

CUSTOMIZATION AVAILABLE

RELATED PRODUCT:

Key Surgical Adhesive Remover is an instrument-friendly solution that makes it easy to remove identification tape. Environmentally safe, without hazardous solvents or toxic fumes, it is California Air Resources Board (CARB) compliant. Dissolves adhesive residue quickly and restores instrument surfaces to their original condition. Fresh citrus fragrance. Available in either (1) 32oz bottle or a case of (6) 4oz bottles.
