

4K PLANNING WITH EASE AND FLEXIBILITY

Vendor-Neutral OR Integration.
Get the most out of your
4K investment.

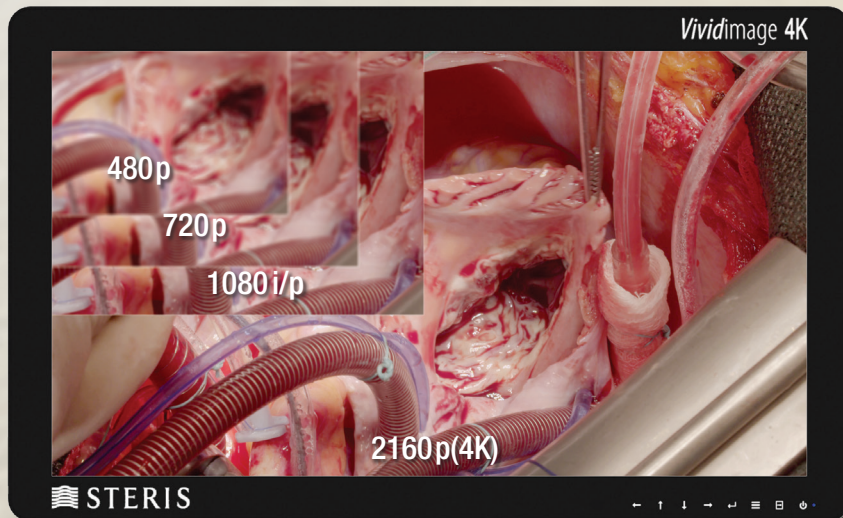

Making your OR 4K compatible can be as easy as upgrading your existing integration equipment.

STERIS's 4K upgrade package for the Harmony™ iQ 3600 and 2800 OR Integration System consists of 4K routing hardware that installs within the existing system and a new 4K surgical field display.

READY FOR 4K WHEN YOU ARE.

Supporting Your Evolving Technology Needs...at Your Pace.

Harmony iQ Integration Systems' scalable design and fiber-optic architecture support more connections and higher resolutions as your needs grow. Through the future-ready design of Harmony iQ Integration Systems, you can be assured that **the Harmony iQ Integration System you use TODAY will meet your 4K needs of tomorrow***

View greater detail and 4x the resolution of HD. See with greater clarity and precision when performing complex procedures.

Advanced Visualization without Compromise

What good is a 4K integration system that ties your hands to limited imaging devices and capabilities? Harmony iQ Integration System's vendor-neutral architecture empowers you to choose the 4K imaging devices that best suit your needs. Further, you retain the robust collaboration and workflow tools you expect in a STERIS integrated OR.

Connected OR Solutions from STERIS to Deliver Better Outcomes.

Technology upgrade part numbers

4K Routing: Harmony iQ Integration System Upgrade Kit RLQ3600R4K

Visualization: 4K Surgical Field Display RLQ3600V4K
